SKILLS

- **Languages:** C++ (DSA), Python, SQL
- **Frameworks:** Pandas, NumPy, Scikit-learn
- **Tools/Platforms:** MySQL, Matplotlib, Excel, Tableau, Power BI
- **Soft Skills:** Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

OTT Market Analysis & Business Growth Dashboard in Tableau | Tableau, Excel (Data Preparation & Visualization) | [GITHUB](#) Dec' 24 – Feb' 25

- Analysed the market performance of major OTT platforms (Netflix, Prime Video, Hotstar, ZEE5, and Aha) to identify growth opportunities for Aha.
- Developed interactive Tableau dashboards using Tableau (Dashboarding & Data Visualization) and Excel (Data Preparation) to visualize OTT market trends, subscriber growth, revenue insights, churn rate, and content engagement patterns.
- Designed bar charts, line graphs, pie charts, heatmaps, and interactive visualizations to showcase key performance indicators, enabling a comprehensive understanding of OTT market trends.
- Optimized data-driven decision-making by providing insights into OTT monetization (Subscription vs. Ad Revenue), user retention, and trending genres, enhancing Aha's strategic planning.

Attendance Management System | C++ (DSA) | [GITHUB](#) Jul' 24 – Aug' 24

- Developed a C++-based attendance management system leveraging DSA concepts like hash maps for quick student lookup and linked lists for dynamic attendance tracking.
- Implemented sorting algorithms for efficient report generation and applied OOP principles to ensure structured and scalable data management.
- Designed an interactive menu-driven interface to enhance user experience, allowing seamless attendance tracking and report retrieval.
- Optimized system performance by utilizing efficient data structures, reducing lookup and update times for large datasets.

TRAINING Jun' 24 – Jul' 24

- **Intensive Summer Training Program:** Completed at Lovely Professional University (LPU), focusing on mastering Data Structures and Algorithms (DSA).
- **Hands-on Experience:** Gained extensive experience working with arrays, linked lists, stacks, queues, trees, graphs, hashing, and dynamic programming.
- **Algorithm Implementation:** Designed and implemented efficient algorithms for problem-solving, optimizing code performance.
- **Enhanced Skills:** Strengthened problem-solving skills and algorithmic thinking, beneficial for competitive programming and real-world applications.

CERTIFICATES

- | | |
|--|---------------|
| • Programming in C++: A Hands-on Introduction Specialization (Codio) Coursera | February 2024 |
| • Excel Skills for Data Analytics and Visualization Specialization (Macquarie University) Coursera | April 2024 |
| • Mastering Data Structures & Algorithms: Theory to Practice University | August 2024 |
| • Supervised Machine Learning: Regression and Classification Coursera | November 2024 |
| • Data Analysis with Tableau Coursera | November 2024 |

ACHIEVEMENTS

- **Second Place – Photography Competition in LPU (Media Category)** January 2023
Vivant Live Fest, Organized by Ojaswi, Lovely Professional University position
Recognized for proficiency in photography among university participants

EDUCATION

- | | |
|--|---|
| • Lovely Professional University
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.7 | Punjab, India
Aug' 22 – Present |
| • Sri Chaitanya Junior College
Intermediate; Percentage: 95% | Ameenpur, Hyderabad
June'20 – Mar'22 |
| • Spring Dales Grammar High School
Matriculation; CGPA: 10 | Siddipet, Telangana
March 2020 |
